

## **Thank You – Here is your free digital Custom Map, or pdf Walk! book, to say thanks for your review.**

The very best thing about being Discovery Walking Guides is when you tell us how our books and maps have improved, or made, your holiday adventures. You also keep us up to date with your observations that are invaluable for our updating to new editions. Lots of you post reviews on amazon.co.uk and other review sites, which we would like to encourage.

If you are prepared to take a couple of minutes posting a review then we would like to show our thanks by sending you a dwg digital product of your choice. This could be the pdf version of a Walk! book or the Custom Map digital edition of a Tour & Trail Map. You can post as many reviews as you like as our offer applies to each review.

For amazon.co.uk you will need to be an amazon customer to post a review, other web sites may have similar conditions for posting reviews. It would be good to see reviews appearing on sites like Wordery, Blackwells, Stanfords etc.

When posting a review make sure you are posting that review on the latest edition of the map/book. Then when your review is on the web site let us know by email at [ask.discovery@ntlworld.com](mailto:ask.discovery@ntlworld.com) telling us; the title you have reviewed, which website we will find the review on, your name and user name for the review.

Once we have checked your review we will send you an email with the download link to receive your new map/book. If you posting more than one review tell us about each one and the maps/books you would like to receive.

On page 2 we have listed our digital products currently in publication. You can choose from any of these books/maps/adventure packages for each review that you post. Post two reviews, choose two free downloads. Post three reviews, choose three free downloads. As soon as we know about your review we will email you with the download link, or links for multiple reviews.

We all like to see positive 4-5 star reviews of products so if you have a problem with one of our books or maps then talk to us first.

Last week we had a complaint from 'David H' about our 'gpx waypoint downloads'. After a couple of emails David phoned 'David H' to try and sort out the problem. What he wanted was a list of waypoints, but that is difficult to do with gpx files unless you have some gps software.

David then re-engineered our down-loadable waypoint files so that now you download a zip file that contains the waypoints in both gpx format (great for using with gps software) and txt format which open in any text editor as a waypoint list for clients who prefer to load waypoints manually. If David H's criticism had appeared as a review we might have dismissed it as technophobe but by talking to us we have a new system that benefits everybody. See the results at our waypoints download page:- <http://www.dwgwalking.co.uk/gpxDownloads.htm>

So rather than paying £4.99 - £11.99 for one of our digital products why not take a couple of minutes to post a positive review for which you have earned a free digital download of your chosen Book, Map or Adventure Package.

Send us your review details and we will have those download links winging their way to you by email.

## **Digital Products published by Discovery Walking Guides**

**All books/maps/adventure packages qualify for a free digital download based on your review.**
